

LEGEND: 🌳 = Biodiversity (2030 Nature Plan); 💧 = Water (Fonds Bleu); 🌍 = Climate (PEV)

Project Category	Examples
Ecosystem Restoration 🌳 💧 🌍	Wetland recovery, shoreline planting, wildlife corridors
Species Protection 🌳 💧 🌍	Caribou or bird habitat restoration, fish habitat protection, monitoring tools
Invasive Species Control 🌳 💧	Phragmites or zebra mussel removal, community cleanup efforts
Sustainable Land Use 🌳 💧 🌍	Eco-tourism trails, pesticide-free zones, riparian buffer planting
Indigenous Leadership 🌳 💧 🌍	Indigenous Protected Areas (IPCAs), TEK-based planning, land-use maps led by Cree entities
Community Engagement 🌳 💧 🌍	Youth land camps, education signage, Biodiversity or water-awareness workshops
Climate Resilience 💧 🌍	Nature-based erosion control, flood defenses, green infrastructure (e.g. bioswales, berms), coastal erosion and flood-zone mapping
Emergency Preparedness 🌍	Local adaptation planning, land-based climate risk response workshops
Data & Monitoring Tools 🌳 💧 🌍	Water sensors, biodiversity mapping, weather stations, Mobile apps for citizen science
